Public Hearing and Work Session

2

1 be recommended for approval by PDS staff. The application presented requests a
2 reclassification of 19.4 acres as Open Space, Farm and Agricultural Conservation Land
3 from Open Space, Farm and Agriculture.

4 Commission Chair Barton asked whether or not the access road to the property was
5 private or a public access road. Ms. Drewry responded that the road is private and as
6 part of the applicant's Public Benefit Rating (PBR) score, they received points for
7 access to the parcel but did not score as high as a public road.

8 Commissioner Mocerri asked what would happen if the property is not reclassified.
9 Ms. Drewry explained the property would no longer be part of the program and the
10 owners would owe back taxes for all the years the property was included.

11 Commissioner Hansen asked if the property was reclassified now, and then the owners
12 decide to reclassify and develop the land into five acre lots, what would the tax penalty
13 be for that. Ms. Drewry responded the property owners would owe approximately
14 \$1,000 per acre in back taxes for the past seven years.

15 Commissioner Deshmane asked to explore the issue of the water footprint and water
16 rights, and the impacts this property would have if it was switched to an open space
17 designation.

18 Commissioner Mocerri asked if the private road were changed to public access how that
19 would impact the neighboring homes around the property.

20 Commissioner James asked about the PBR scoring system and if the application had
21 earned a high enough score to be recommended for approval. He stated that based on
22 the information provided, the property does not qualify for Open Space approval
23 recommendation and, especially as it would impact the neighboring properties, he
24 argued that the Commissioners should not break from staff recommendation.

25 Commissioner Hansen noted that if the property were denied reclassification into the
26 Open Space Program, it is possible multiple homes could be built there instead which
27 would provide much less environmental conservation and be similarly if not more
28 impactful to the neighboring properties.

29 **Public Hearing and Work Session Regarding Open Space Applications**

30 **Timestamp: 7:25p**

31 There was no public comment.

32 **Open Space Application Work Session**

33 **Timestamp: 7:25p**

34 **2Commissioner James moved** to recommend the reclassification of the Open Space
35 application be denied to council.

36 **Commissioner Jackson seconded.**

37 **Roll Call Vote: Ayes- Jackson, James, Mocerri, Van Dalen, Dahlquist, Barton**

38 **Nays- Hansen**

39 **Abstain- Deshmane**

40 **(Ayes-6; Nays-1; Abstain-1). The motion carried.**
